

WEEKLY REPORT
08/04/13–08/10/13

Cpl. Spadola has begun training officers on using www.raidsonline.com. Earlier this year, Newark PD began utilizing the service which maps out NPD's crime data. The site features some powerful analytical capabilities, and will be very useful in helping officers observe crime trends and also to keep the public informed of activity in their neighborhood.

Newark's newest recruits have finished their first week on the job. The first half of their week was spent observing their Field Training Officer (FTO). The Field Training Process lasts approximately 12 weeks, and involves the officer having multiple FTO's which helps the officer learn various viewpoints.

On August 13, 2013, the City of Newark received several inches of rainfall which created major flooding in the area. Floods were reported throughout the City and traffic lights were out at 11 major intersections in the city. Several officers were assigned to the major intersections to direct traffic. No major incidents resulted thanks to the quick response of all City Departments and DeIDOT.

Our incidents of crime continue to decline in the city. Year to date in 2013 we have had 8 less robberies, 208 less assaults, 41 less burglaries and 111 less thefts, as compared to 2012.
